

FLEETWASH

CAR & TRUCK WASH

TECHNICAL DATA SHEET

Packaging	Code
4L Gallon	1601840
20L Pail	1601841
205L Drum	1601842

Description:

Reliable Fleetwash is a concentrated car and truck wash that has excellent foaming capabilities. It is designed to be used in manual washing of vehicles. Fleetwash because of its high foaming characteristics lubricates brushes and removes dirt without harming protective wax or silicone coatings. This product can be used with proportioning devices to clean trucks, cars and other painted equipment.

Directions:

For Manual Operation: Mix 1 part of concentrate to 160 parts of water. If possible remove car from direct sun. Hose down vehicle thoroughly with cold water. Apply diluted cleaner using a soft brush, cloth or mitt. Rub briskly where there are bug stains. Rinse well with cold water. Vehicle may be wiped dry with a chamois or left to air dry.

For Tunnel Washing: Mix 1 part concentrate to 160 parts of water. This product is designed to work through a proportioner and give rich suds and be easily rinsed away.

Features & Benefits:

- High Foaming
- Low Odor and Toxicity
- Excellent Rinsing
- Compatible with most painted surfaces
- Works Quickly and Efficiently
- Biodegradable

Safety:	
Personal Protection	B
Health	2
Flammability	0
Instability	0

0 =	Insignificant
1 =	Slightly
2 =	Moderate
3 =	High
4 =	Very high

Specifications:

Form	Liquid
Odor	Bubble gum
Specific Gravity	1.02
Colour	Blue
